Your Excellency, we held the Uganda National Seminar on Juche Idea under the theme: “Juche Idea and Independence” on the occasion of the 75th anniversary of the founding of the Workers’ Party of Korea (WPK) in Kampala.

The seminar is being held on the background of the D.P.R. Korea’s record resilience in defending its sovereignty, maintaining peace and advancing all field such as the socio-economic, scientific and technological, cultural, military fields and also people’s living of standards amidst heated by imperialistic pressure and blockade. We hold your wise leadership in high esteem for having showed the world the true meaning of spirit of independence and self-reliance which you have achieved by means of independent politics, the single-hearted unity of the society through your wise revolutionary leadership based on the Juche idea and the politics of loving people. Because of these notable successes, allow us in a special way to salute the founding

father of the WPK, Eternal Leader of the Korean people, Comrade **Kim Il Sung**, and the Eternal General Secretary Comrade **Kim Jong Il** for their tremendous self-devotions to in setting a firm foundation for strong and successful party we see today. You have further consolidated the strategic position of D.P.R. Korea in world politics and demonstrated the strength of Juche Korea.

Even though the current international situation continues to be characterized by the worsening contradictions and confrontations among the world powers in the different regions of the world in their pursuit of a greater sphere of influence and domination, the world's revolutionary banner of independence must remain high.

African countries are abundant in both human and natural resources. However, they have neither fully united on the principle of independence nor have checked domination and intervention of imperialists powers dividing the continent. As a result, the continent continues to suffer from disputes, socio-political instability and poverty without comprehensive development strategies.

We therefore make a solemn oath that Africa too will further deepen the study, integration and dissemination of the principles of **Kimilsungism-Kimjongilism** to fulfill our responsibility in the struggle to build a fully united, independent and prosperous Africa. The right cause of the D.P.R. Korea and the world progressive peoples who are advancing under the banner of **JUCHE IDEA** will surely emerge victorious.

Long live the **Workers' Party of Korea!**

Long live the independent cause of the Korean people!

Long live **JUCHE IDEA!**

Long live **Uganda!**
