

REPORT BY THE UGANDA NATIONAL CHAIRMAN FOR THE STUDY OF JUCHE IDEA

Report by

LAWRENCE MAYAMBALA

National Chairman,

Uganda National Committee for the Study of Juche Idea,

*Report during the Uganda National Online Seminar on the Juche Idea and
Collective Self-reliance*

Comrade. Daniel Rugarana, Deputy Chairman of the Uganda National Committee for the study of Juche Idea

Mr. Mukasa Martin, Chairman of Uganda-DPR of Korea Friendship Association

Fellow Juche adherents and participants to this seminar, Comrades, ladies and gentlemen.

It's such a great moment for me to hold the Uganda National Seminar on the Juche idea 2020 under the theme; "Juche Idea and Collective self-reliance" on the occasion of 'the Day of Sun', 108th anniversary of the birthday of the Eternal President H.E. **KIM IL SUNG**, the DPR of Korea and the 35th anniversary of the establishment of the African Regional Committee of the study of Juche Idea.

I take this opportunity to extend warm greetings to all of you on behalf of all members of Juche idea adherents in the Republic of Uganda.

The seminar is being held at a time when Africa under the African Union has declared Agenda 2063 as a self-sustaining roadmap for its transformation from a developing state to a fully developed status.

Uganda as a country has an ambitious target of achieving middle-income status.

It is well known that there are some challenges which African countries have to address internally and externally in the course of getting Agenda 2063.

Under current situation and many challenges which the East African region and the rest of the continent are facing the target can not be easily achieved.

Today, the speed of economical and technical development is globally so fast. African

continent has a great potential including its population and a plenty of natural resources etc., for development. If the African countries step up its human resource development, strengthen building-capacity, raise peoples' awareness of themselves as masters of their destinies and mobilize all people in a better way the continent will be emerged as a power in the world.

It is considerably well known that there should be enough funds, high-technology, well-educated human resources, good leadership etc., so as to come our dream into true. Let us check above-mentioned areas one by one.

It is supposed that the continent has advantages such as rich natural resources which can be tremendous capital and huge population which strongly push transformation faster.

However, its speed for development is not much enough for our demand because of some factors.

One factor is the consistent interference and pressure from foreign forces who are seeking to prevent African countries from getting together collectively.

Another factor is the slow of raising awareness of who we are.

It is said that the unity is the mighty.

If we firmly unite internally and externally and demonstrate our high spirit of collective self-reliance any power will not look down on us.

What I am going to say is that the collective self-reliance is not a slogan and our priority number one in the areas of politics, economy and defence.

We should unite firmly with each other domestically and also regionally and concentrate on collective self-reliance.

It is not hard to find out examples of collective self-reliance.

Comrades, this is a true manifestation that the principles of Juche idea are alive and well in Africa.

The juche adherents in Africa are inspired by the immortal exploits of Comrade **KIM IL SUNG** and his outstanding leadership. This leadership anchored in the Juche philosophy laid solid foundation which has spurred the DPRK both militarily and technologically and has been instrumental in keeping the forces of subjugation at bay. As Comrade **KIM IL SUNG** said that man is the master of everything and decides everything.

It is well recognized that the Korean people, the master of everything who armed with

Juche idea have brought about brilliant successes in building a powerful socialist nation. Upholding the banner of collective self-reliance, the Korean people have moved forward vigorously with smashing sanctions and pressures imposed by imperialists. In the case of example in Uganda, we have excellent leadership rallied around H.E. **Yoweri Kaguta Museveni**, President and NRM with its right manifestations.

Uganda is also rich in natural resources and steps up acquiring high-technology in a faster way in all fields.

What is reminded is to raise awareness of collective self-reliance because the unity and collective self-reliance are the mighty in doing everything.

I have no doubt that if African countries exercise collective self-reliance in the areas of politics, economy and defence the African continent will become much stronger and reach at the Agenda 2063.

We salute Supreme Leader of the DPR of Korea, Comrade **KIM JONG UN** for embarking on this great journey to lead the DPRK to the final victory.

In a special way, allow me comrades to express my gratitude to the leadership of the Democratic People's Republic of Korea starting with H.E. President **KIM IL SUNG**, Eternal Leader of the Korean people and also the great pioneer of the cause of global independence. Comrade **KIM IL SUNG** provided the guiding principle towards the successful accomplishment of the world's socialist revolutions based on the Juche idea. The Juche idea is anchored in the fundamental demand of man as a social being to live and develop in an independent way as the master of the world and his own destiny and gives light to the correct way for realization of independence of the country and nation and the popular masses, and firmly ensures it by means of powerful arms.

These ideas have transformed the world struggles in liberation of the oppressed and exploited peoples of the world, and gave correct answers to both theoretical and practical problems arising from the realization of the cause of global independence, such as the national liberation struggle in the colonial countries, the socialist movement, anti-imperialist and the movement for reconstruction of socialism. Thanks to his energetic activity, the Pyongyang Declaration, "Let Us Defend and Advance the Cause of Socialism", was adopted on April 20, 1992, signed by heads and delegates of 70 parties of the world, which was an event of historic significance in the strengthening the unity and solidarity between the parties aspiring for socialism and reconstructing the cause of socialism.

Comrade **KIM IL SUNG** built the DPRK into a socialist power of independence, self-reliance and self-defense, and put great efforts in strengthening the international solidarity with the socialist countries and achieving the unity in the international socialist movement.

Comrade **KIM JONG IL** carried forward, enriched and developed the Juche philosophy.

It was a great event for the world progressive people to mark 38th anniversary of presentation of treatise “ On the Juche Idea” authored by Comrade **KIM JONG IL** on 31st of March, 1982.

This is one of his tremendous ideological and theoretical exploits who made a great contribution to the ideological history of human.

We are so pleased to mark 35th anniversary of establishment of the African Regional Committee of the study of Juche Idea. It was established on 15th of April, 1985.

It was a significant event for African progressive people who step up toward a independent and powerful continent which will be equal to world powers.

Without a doubt, the Juche Philosophy resonates well for the transformation of Africa.

We are challenged to take charge of our destiny and guard our sovereignty against the marauding forces of imperialism and subjugation.

The Uganda National Committee for the Study of Juche idea is a formidable team composed of members from both public and private sector including scholars.

We work together with the National Resistance Movement Party, education institutions and also the Pan African Movement in Uganda in our quest to transform our country Uganda.

Under the theme “Unity and prospects for Transformation of Africa” the Uganda National Committee for the Study of Juche idea held Uganda National Seminar on 28th of July, 2017 in Kampala and on 18th of October, 2019 Uganda National Seminar was held under the theme “Independent Transformation and Regional Cooperation 2019”.

The seminars were the significant occasions which all participants acknowledged that the unity and self-reliant were necessary and best way for transformation of Africa.

Comrades allow me to report that in my term of office, I had the privilege of visiting the land of Juche.

I was in Pyongyang September, 2016, where I was able to witness first hand, the transformations in terms of; the infrastructure, sports and science all which are

resulting from the investments in the education sector.

I can confirm that despite continuing and new sanctions (the D.P.R.K has been under crippling sanctions for over 70 years now), Pyongyang continues to make demonstrable progress in development.

Universal Healthcare for all citizens and Free Education remains the key pillars of D.P.R. Korea. Education is universal and state funded thereby contributing to the 100% national literacy rate for citizens.

Based on its unfathomable national strength, and the hydrogen bomb in particular, the DPRK is demonstrating its prestige as a responsible nuclear power that contributes to establishing a just world order by frustrating the imperialists' nuclear threat, blackmail, and high-handed and arbitrary behaviour in the international arena.

This remains the sole contributor towards the Ideological clarity, Social harmony and abundant integrity among the people of D.P.R. Korea. As a leader of the Study of Juche (**Kimilsungism-Kimjongilism**) in Uganda, I call upon our educationists to co-opt the ideals of the D.P.R. Korea guiding philosophy in championing the interests of our mother Uganda as well.

Please allow me to convey the special news about the underlying line set forth by the chairman of the Workers' Party of Korea, Comrade **KIM JONG UN**.

“The 5th Plenary Meeting of the 7th Central Committee of the Workers' Party of Korea was held at the headquarters building of the WPK Central Committee from December 28 to 31, Juche 108 (2019).

Comrade **KIM JONG UN**, chairman of the Workers' Party of Korea, guided the plenary meeting.

In the meeting Comrade **KIM JONG UN** advanced the revolutionary line on launching an offensive for frontal breakthrough as required by the present situation and the developing revolution.

He clarified that the basic idea, the basic spirit of the 5th Plenary Meeting of the 7th Central Committee of the WPK is to conduct the offensive for frontal breakthrough, not to wait for the situation to turn better.

In other words, we should never dream that the U.S. and the hostile forces would leave us alone to live in peace, but we should make frontal breakthrough with the might of self-reliance to tide over the difficulties lying in the way of advancing the socialist

construction, he said.

He said that we should not look for the way of getting ourselves adapted to the objective elements to be controlled by them in the current struggle, but should make a frontal breakthrough to put the objective elements under our control”.

Under current situation it is so clear that the revolutionary line set forth by WPK is justice and reasonable for the Korean people who struggle against imperialists.

We, Juche adherents fully support the idea and the revolutionary line of the frontal breakthrough set forth by Comrade **KIM JONG UN**.

Long Live Juche Idea

Long Live Supreme Leader of the DPR of Korea, Comrade KIM JONG UN

Long Live H.E. Gen. YOWERI KAGUTA MUSEVENI

Long Live Uganda

Thank you.
