We are so pleased to join the world progressive people to celebrate the 40th anniversary of the publication of the immortal and classic work “On the Juche idea” authored by H.E. Kim Jong Il.

It is significant meaningful to recall the immortal ideological and theoretical exploits and energetic activities of H.E. **Kim Jong Il** who systematized and developed comprehensively the Juche idea on the occasion of the 40th anniversary of the publication of the immortal and classic work “ On the Juche idea”.

In order to further develop the Juche idea, H.E. **Kim Jong Il** paid deep attention to the theoretical development of basic principles of its philosophy.

He paid the biggest attention to the explanation of man’s essential characteristics.

H.E. **Kim Il Sung**, creator of the Juche idea, said that independence is life and soul of man, that man is a being with an ideological consciousness of independence and that man is the most developed and powerful being in the world. The eternal President also said that man transforms nature and society and develops science and technology, and therefore, man becomes the master who puts the world under his control and the factor that decides everything.

Theoretically systematizing historic courses of the Korean revolution and the mankind and the President’s sayings, H.E. **Kim Jong Il** provided the formulation that man is a social being with independence, creativity and consciousness.

The theoretical formulation of man’s essential characteristics served as a fundamental basis that enabled to systematize the Juche idea theoretically as the man-centred world outlook.

He comprehensively systematized the socio-historical principles that put forward the masses of the people as the subject of social history on the basis of man’s essential characteristics and the philosophical principle that man is the master of everything and decides everything.

He also systematized it as the guiding principles of the Juche idea that the independent stand should be maintained, that creative methods should be applied and that main stress should be put on ideology.

On March 31, 1982, H.E. **Kim Jong Il** made public “On the Juche Idea”, a classic work that integrates the Juche idea perfectly.

In the work, he included such broad and profound contents of the Juche idea as the origin, the philosophical principle, the socio-historical principles and the guiding principles of the Juche idea and systematized them in an integral way.

The work was carried on over 10 million copies of publications in more than 90 countries of the world and published in booklet in 144 countries in less than a year after its publication.

Prominent figures in different countries and progressive people highly praised the work as the “new Communist Manifesto in the 1980s” and a “basic text of philosophy for realizing the popular masses’ independence”.

In the works “On Some Problems of Education in the Juche Idea”, “Let Us March Forward Dynamically along the Road of Socialism and Communism under the Unfurled Banner of the Anti-Imperialist Struggle” and “On Establishing the Juche Outlook on the Revolution”, the Chairman further developed contents of the philosophical principle and the socio-historical principles of the Juche idea with the theory of socio-political organism, the theory of outlook on the revolution and the principles governing in making the outlook on the revolution the view of life.

He also further developed the idea of role of man’s ideological consciousness clarified for the first time by the Juche idea.

He explained and proved in a profound way the theory of ideology that ideology is the main in the revolution and construction and the popular masses’ ideological and mental strength decides everything, by combining its vitality and ideological and mental traits of the people who build a powerful country, thus further developing the Juche idea of giving importance on ideology.

Thanks to H.E. **Kim Jong Il**’s energetic ideological and theoretical activities, the Juche idea, the revolutionary idea of H.E. **Kim Il Sung**, has been developed into an encyclopedia of the era that gives the most correct and principled explanations to all theoretical and practical problems arising in the era.

Indeed, H.E. **Kim Jong Il** made a brilliant contribution to the ideological history of Mankind.

H.E. **Kim Jong Il** made a tremendous contribution to the mass’s independence cause.

He also showed the victorious model in the struggle of anti- imperialists by safeguarding the sovereignty and dignity of the DPRK amidst increasingly harsh aggressive threats of imperialists against the country.

The immortal idea and exploits of H.E. **Kim Jong Il** will forever shine in the hearts of the world progressive people.

Today’s brilliant successes achieved by the Korean people cannot be thought apart from the sacrifice and devotion of H.E. **Kim Jong Il**.

Today the world witness that the DPRK became a political and militarily powerful country even the nation has a small population and territory in comparison with other developing nations.

The core reason is that H.E. **Kim Il Sung**, founding father of the DPRK and H.E. **Kim Jong Il** laid the firm foundations for the construction of a powerful socialist nation and H.E. **Kim Jong Un** thoroughly carry forward the idea of the Leaders and further shines their immortal exploits.

The noble whole life of people-loving and patriotic sacrifice of H.E. **Kim Jong Il** as the great person will forever shine in the Korean revolutionary history.

In the case of example in the DPRK, any people can enjoy peace and development of their lives without any interference of outside forces while checking any threat from powers if they uphold a brilliant and great leader, in high esteem, who leads his country in the view of strategic plans and makes firmly people rallied as one on the basis of revolutionary idea which the desire and demands of the people has been reflected.

We highly appreciate H.E. **Kim Jong Un** over his wise leadership in leading the Korean people to building a powerful socialist nation.
