

**Let us Turn Out in the Efforts
to Defend the Just Cause of the Korean People**

Appeal to the World Juche Idea Followers

(Appeal of the African Regional Seminar on the Juche Idea)

African Regional Seminar on the “Juche Idea: lessons for Independent Transformation of Africa” was grandly held in Kampala, the capital of the Republic of Uganda on May 11, 2013, reflecting the aspiration of the progressive people in the world for the building of the independent and peaceful new world.

The seminar was held in the atmosphere of active support and encouragement to the just cause of the Korean people.

At the 14th meeting of the executive committee of the IJJI board of directors held in last April, it appealed upon the world Juche idea followers to extend active support and encouragement to the Korean people in their righteous cause to frustrate the imperialist aggressive moves, reunify the country independently and build a thriving nation.

Actively responding to the appeal, we, the participants of the African Regional Seminar on the Juche Idea appeal to the world Juche idea followers.

Under the leadership of the respected H.E. **Kim Jong Un**, the Korean people are now scoring great successes in carrying forward and developing the cause of independence, the revolutionary cause of Juche that was pioneered by President **Kim Il Sung** and led by the General Secretary H.E. **Kim Jong Il** to victory.

In December, 2012 the DPRK successfully launched artificial satellite “Kwangmyongsong 3-2”, thus making a new progress.

All countries and nations in the world are independent and equal and the launching of artificial satellite is the recognized rights of any country from the viewpoint of the international law.

But the US and its following forces continuously cooked up the “resolutions on sanction” in the heinous UNSC and staged dangerous nuclear war exercises to drive the situation of the Korean peninsula to brink of a nuclear war.

Under the leadership of H.E. **Kim Jong Un**, Korea is now bravely fighting, keeping tough stand against the imperialists’ maneuvers including the US.

Struggle of the Korean people is just struggle and the cause of the Korean people is a fortress of the world independence and a guide of victory.

It is an urgent requirement for hastening victory of the global independence to defend the DPRK which is the good example and brilliant banner for the progressive humanity and the Juche idea followers who aspire after the independence and peace.

Juche idea followers in the world!

Let us turn out in the efforts to resolutely oppose and reject domination, interference and aggressive moves of the US and its followers to defend the righteous cause of the Korean people!

Even at this moment, the aggressive nuclear military exercises of the US aiming at nuclear disarmament and system disintegration of the DPRK are threatening not only the Korean people but also the world peace, causing grave difficulties in the Korean people's economic construction for promoting the people's living standards.

The reality of the DPRK once again proves the truthfulness and importance of the Juche idea and Songun idea that only when one has one's own powerful armed forces can one repulse imperialists' aggressive moves and safeguard sovereignty of the country and the people's rights to existence and achieving economic prosperity.

Convincing once again that the line of simultaneously carrying on the construction of the economy and the upbuilding of the nuclear forces put forward by H.E. **Kim Jong Un** in the March 2013 plenary meeting of the Central Committee of the Workers' Party of Korea is the only line for accomplishing the cause of global independence in this world where the imperialists run wild, resorting to military aggressive moves, we actively support this.

Let us conduct the worldwide solidarity movement to support the Korean people's struggle for carrying on simultaneously the construction of the economy and the upbuilding of the nuclear forces upholding the banner of independence and justice!

Let us raise the voice of denouncing the US and imperialist's moves of anti-DPRK sanctions and the military aggression!

The struggle of the Korean people who hold the treasured sword of nuclear in their hands and build a socialist powerful country to be envied by the world is an eternal flame of justice.

This flame of justice will surely remove all sorts of vicious obstacles, once and for all.

Representing the aspiration of the progressive African people desirous of independence and peace, we once again call upon the Juche idea

followers in the world to actively support and encourage the cause of the Korean people who are firmly united around H.E. **Kim Jong Un** to safeguard the independence and justice against the imperialists' aggressive moves!

We will vigorously fight to build independent new world, after sweeping away the imperialists on the earth.

The righteous cause of the Korean people and the world progressive peoples who are advancing under the banner of **Kimilsungism-Kimjongilism** will surely emerge victorious.

Long live the independent cause of the Korean people!
Long live **Kimilsungism-Kimjongilism**!
