

Prof. Hessou Kohovi-Bennin

Delegates from the DPRK,
High-ranking officials of the Republic Of Uganda who participated in the regional seminar held in Kampala,
President of the Preparatory committee of the seminar,
Foreign delegates,
Ladies and gentlemen,

Having the sentiment of great emotion and gratitude, and unconditional support towards the Korean people, I read my paper in seminar held in this kind-hearted country.

I express my heartfelt thanks to organizational committee for organizing the seminar on the "Leader Kim Jong Il is the Sun of Humankind who made an Immortal Contribution to the Cause of Global Independence."

General Kim Jong Il, a great philosopher successfully carried forward the cause of the great leader in all fields of social life including politics, economy and culture. The Juche idea which was further developed by him is the most profound philosophy and it can be compared with the sun that gives light and heat on this planet. As the sun has no border, so the whole mankind should utilize this philosophical thought.

Leader Kim Jong Il is a peerless great man who led the cause of global independence to victory with his great ideology and outstanding leadership. He formulated the revolutionary idea of President Kim Il Sung into an integral system of idea, theory and method of Juche to further develop and enrich it, and thus added luster to it as a guiding ideology in the era of independence. It serves as the immortal exploits performed by him for the cause of popular masses' independence.

Leader Kim Jong Il is a peerless great man and world elder politician who unfolded unique Songun politics to defend the gains of socialism with credit. His glorious history is that of a great leader do made energetic activities for the victorious progress of the cause f global independence. President Kim Il Sung and leader Kim Jong Il who founded and further developed the guiding

ideology for the human emancipation will always live in the hearts of mankind and their exploits will shine forever with Kimilsungism-Kimjongilism.

Ladies and gentlemen,

Today when the people and the army in the DPRK turned their great sorrow into the thousands fold of strength and courage to embark on the road of general onward march for the prosperity in a new Juche era, we, the friends of the Korean people should hold aloft a torch of the Korean people true to the noble idea of President Kim Il Sung and leader Kim Jong Il, the great leaders and founders of the Juche idea, and Marshal Kim Jong Un an outstanding successor to the great leaders.

Leader Kim Jong Il was an outstanding thinker and theoretician, elder politician, distinguished Songun commander and peerless patriot led the revolutionary cause of Juche to victory with his profound idea and theory and outstanding leadership. He adorned his whole life of revolutionary with the ceaseless devotion for the country and nation.

Thanks to his wise leadership, the Juche idea, Songun idea founded by the President shone brilliantly as the guideline in the era of independence, as the revolutionary traditions of Mt. Paektu. He resolutely defended the gains of socialism, the precious heritage of the President.

Today, the Juche idea serves as a powerful weapon of the popular masses' struggle for independence. Songun idea that illuminates the road for the realization of the popular masses' independence is the banner of independence against imperialism.

Even in the all sorts of trials and difficulties, Korea resolutely frustrated the imperialists' moves to isolate and stifle her to defend sovereignty and dignity of the country and nation with credit. Such realities clearly prove the invincible vitality of Songun idea.

Mankind will advance along the road of independence as before.

Independence is a life and soul not only to the individual, popular masses, country and nation but also to entire mankind. Every country and nation oppose domination and subordination and are to solve all problems by their own efforts in conformity with the demands and interests of their people without relying on the external forces. As any nation does not tolerate its dignity to be trampled

down, so no one on earth wants to be subjugated by the others.

We live in the era of independence when the popular masses transform the world and shape out their destiny creatively.

Ladies and gentlemen,

Today when the Korean people and army who engraved the greatness of their sun of the nation in their hearts have turned out with a firm determination to realize leader Kim Jong Il's desire and cause, we value the peace, justice and dignity of mankind should extend powerful support to the Korean people for the final victory of the Juche idea and Songun idea, for the realization of the independent and peaceful reunification on the Korean peninsula. Now the US imperialists in collusion with the traitors in south Korea are going endless lengths in their maneuvers to obliterate lawful will of the entire Korean people.

The imperialists create social chaos and disorder while infringing upon the sovereignty of the countries and nations in the world by dint of high-handedness arbitrariness. We should resolutely oppose and reject all sorts of imperialist pressure and interference not to tolerate any slight act of infringing our sovereignty.

We appeal to the entire anti-war and peace-loving people in the world to turn out as one in the struggle to oppose high-handedness and arbitrariness of the US.

Injustice advocating by the US never can be justice even though the US is a great power with the huge military potentials.

Likewise, resolutions of the UNSC become the world injustice and crimes running counter to the trend of the times if they are bereft of impartiality.

Injustice is the fire guttering out; therefore it can not last longer.

Justice is the fire blazing up and it is eternal.

The Supreme Command of the KPA call upon the world conscience to join in the struggle of the Korean people and the army turned out for defending sovereignty and justice, not to tolerate the high-handedness and arbitrariness of the US and not to blindly follow the resolution of the UNSC bereft of impartiality. Victory goes to the Korean people and the army turned out for defending their sovereignty and the progressive mankind loving the peace and

justice

The DPRK vigorously advances in order to shape out and defend the destiny of the Korean people. The Korean people are proud of their and faithful to the leadership of the supreme leader Kim Jong Un overcoming all sorts of difficulties lying on the way of consummating the cause of the President and leader Kim Jong Il.

History already recorded the fact that the DPRK has entered the stage of building a thriving nation with the knowledge-based economy thanks to the flame of industrial revolution in the new century kindled by the energetic efforts of leader Kim Jong Il. In 2012, monumental edifices including the Huichon Power Station were set up and many light-industry factories were renovated and modern livestock and fish-farming bases and large-size fruit-farming bases were built in various parts of the country. Models were set up across the country as required by the requirement of the new century and they are the great fruition brought about by the strategies of the Workers' Party of Korea. In a word, overall appearance of the country has been transformed to be appropriate for a thriving country. The Korean people who are true to their leader through generations will surely hit the goal of building a thriving nation under the wise leadership of the great leader Kim Jong Un, a successor to the revolutionary cause of Juche.

Cause of global independence is the cause of the nations and, at the same time, the common cause of humankind.

Unity is victory and division is failure in the struggle for independence. It is the true proved by history.

Though they are small or underdeveloped, all the countries and nations can hasten the consummation of the cause of global independence.

Unity is strength and a powerful weapon of the struggle against imperialism.

All the countries and nations should resolutely reject the imperialists' move for aggression and war and their high-handedness.

Ladies and gentlemen,

The entire African countries need the Juche idea in order to lend an impetus to the development of their underdeveloped economy. The Benin group for the study of the Juche idea has made great efforts to contribute to the

dissemination of the Juche idea in Africa in close cooperation with the national committees in other countries. Kimilsungism-Kimjongilism will enable us to become stronger and cultivate us ideologically so that we could be able to overcome the challenges Africa faces.

Ladies and gentlemen,

Let us unite to extend support to the noble desire of the Korean people increasing the defence capabilities of the country in every way under the banner of Songun. New changes for the great victory are being made in 2013, a decisive year when the flame of Hamnam is blazing up.

We should share and actively support the will of the Korean people who are to implement the behests of President Kim Il Sung and leader Kim Jong Il, the eternal Sun of the nation.

Today, the respected Marshal Kim Jong Un, a peerless patriot, is in the van of the cause of national reunification advancing under the banner of the 3 Charters for the country's reunification and the North-South Joint Declaration and the Korean people are firmly united around him to make great achievements.

We call upon the entire people who value peace, justice and dignity to extend support to the desire of the DPRK headed by the respected Marshal Kim Jong Un.

Immortal glory to President Kim Il Sung, a benevolent father!

Immortal glory to General Kim Jong Il!

Immortal glory to Songun politics!

Long live the respected supreme leader Kim Jong Un!

Let us advance forward for the united and prosperous one Korea!

Thank you.
